# Challenges for hospital and medical facility marketers

MiQ

Highly regulated

Marketing budgets  
are often the first  
cuts made

Siloed brand and  
speciality groups

Pressure on  
performance and cost  
consolidation

Few measurement  
solutions

Prohibitive targeting  
and measurement  
costs

A vintage television set is centered in the image. The screen is a solid purple color with the text "ADVERTISING HAS CHANGED" written in large, white, bold, sans-serif capital letters. The TV has a silver or light-colored metal casing. On the right side, there is a vertical column of eight channel buttons labeled 1 through 8, with "AV" at the bottom. Below these are controls for "ART", "VOLUME", "MAX", and "POWER". At the bottom of the TV, there are labels for "CONTRAST", "BRIGHT", and "COLOUR". The background consists of numerous thin, parallel lines radiating from the center, creating a sense of motion or energy, with colors ranging from light pink to dark red.

# A comprehensive approach to healthcare marketing

## BETTER PLANNING

MiQ's combines anonymized DTC and HCP data with OTC shopping and media habits for Day Zero Intelligence.

## BETTER ACTIVATION

We are partner-agnostic, with access to diverse data sources and multiple DSPs, ensuring unbiased strategies that maximize ROI.

## BETTER MEASUREMENT

Our first-to-market Hospital & Doctor Influence (HDI) dashboard leverages over 300 million insurance claims to deliver actionable insights that prove impact.

# MiQ's Healthcare Data Spine connects siloed data to unlock a complete view of the health journey

+300MM anonymized insured US residents | +2MM HCPs | OTC shopper behaviors | Media habits

The largest most diversified TV data footprint  
70MM devices across 50MM households

DASHBOARD

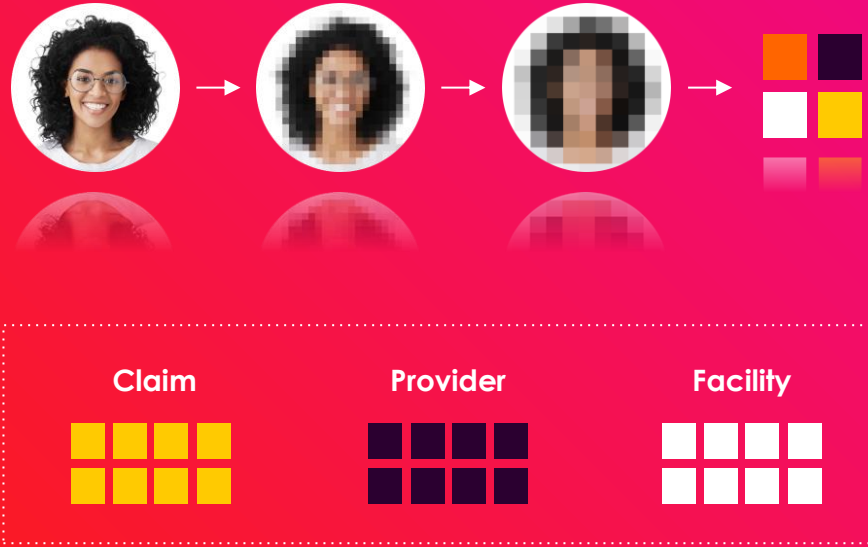

# MiQ's Hospital Doctor Influence Offering

HDI is a measurement solution providing a complete view of patient touchpoints, with detailed insights for continuous optimization

## INSIGHT GATHERING

## DATA PROCESSING

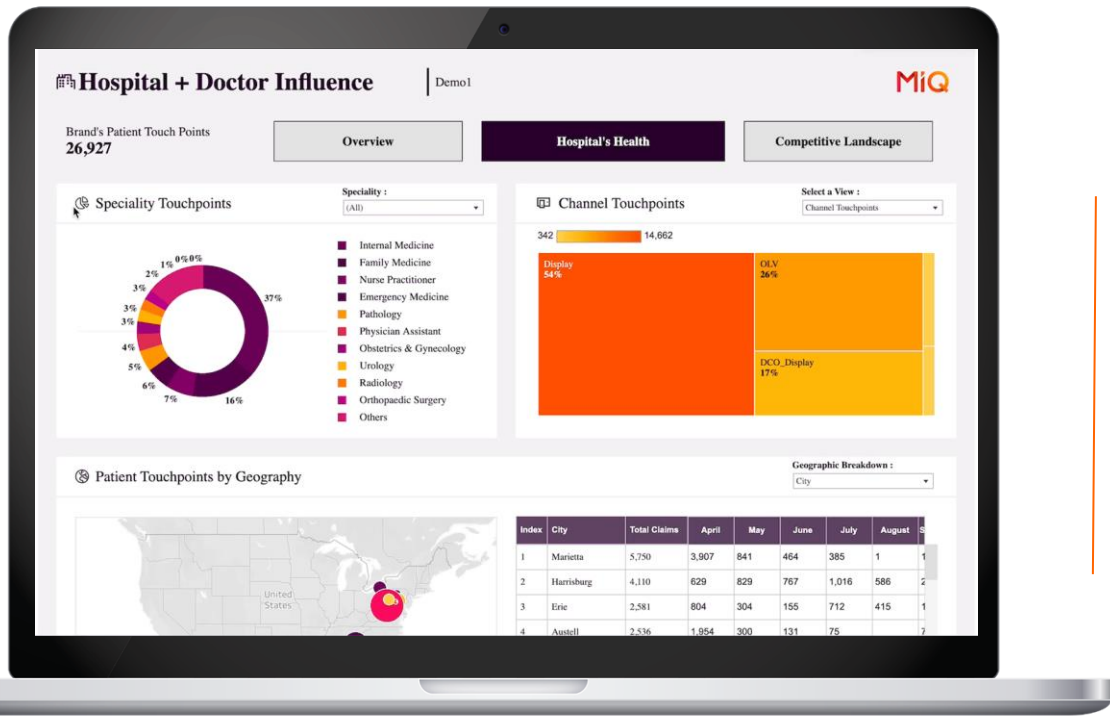

## MEASUREMENT

# Real patient visits, real impact: MiQ's Hospital and Doctor Influence (HDI) measurement solution uses claims data to evaluate campaign success

**Prove ROI** with our first-to-market measurement tool.

Demonstrate the true impact of your media investment by connecting media exposure to patient claims and appointments.

# HDI provides a complete breakdown of claims data with detailed insights to inform optimization

### Campaign overview

Campaign analysis of insurance claims across patients, providers, specialties, locations, and more

### Hospital brand insight

Deep dive into sources of claims across specialties, channels, and geographies

### Competitive landscape

Insight into total claims across competitors for share of voice analysis by geo and specialty

## MBB + MiQ Case Study

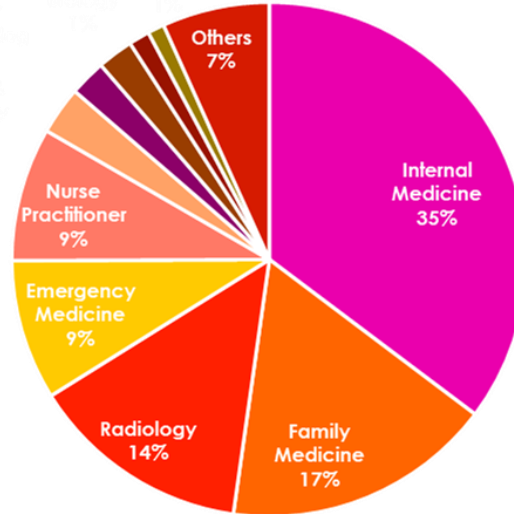

Proving ROI of Healthcare Marketing

Campaign flight: **March-August**

**35.6m** Impressions  
**3,813** Patient Claims

**23% Share of total claims vs 3 selected competitors of similar size (16.8k claims)**

## Claims by Specialty

- **Internal Medicine** and **Family Medicine** make up over half of the claims
- Overtime, **Emergency Medicine** and **Nurse Practitioner** have grown the fastest

## Claims by Channel

- **CTV** was effective reaching **Emergency Medicine** claims
- **Display** and **Audio** connected with **Radiology** claims
